

## **mitsubishi genuine parts**

**“mitsubishi genuine parts” should be used exclusively for servicing your Mitsubishi engine.**

**“mitsubishi genuine parts” are superior and reliable because they have been produced under the excellent quality-control system, and have passed the strict inspections.**

**Imitation parts are not reliable from the viewpoints of their material and manufacturing method which are entirely incomparable with those of genuine parts.**

**A large assortment of “mitsubishi genuine parts” is always available at any of our authorized dealers, so do your ordering at your nearest dealer by specifying “mitsubishi genuine parts”.**

## GUIDE FOR USE OF PARTS CATALOGUE

1. This Parts Catalogue contains service parts for the following Mitsubishi S4S diesel engine.  
Then applicable engine type and serial number are as follows:

| ENGINE NAME | MODEL  | USE-SPECIFICATION | APPLICABLE SERIAL NO. |
|-------------|--------|-------------------|-----------------------|
| S4S         | Y365DP | For POWER UNIT    | XXXXXX-UP             |
|             | Y367DP |                   | XXXXXX-UP             |
|             | Y368DP |                   | 194905-UP             |

2. When ordering parts, give the Mitsubishi dealer or distributor the following information:

- (1) Part number (or assembly number) and part name.
- (2) Quantity required
- (3) Model and serial number

NOTE: In some cases, a substitute part is furnished instead of the part ordered.

3. Indication of assembled bolts with washer

Of the standard bolts, those with washers are identified by the symbol "B/W" in the Description column of each list. (Part Name: BOLT, W/WASHER)

For the part numbers of the bolts, washers and those of bolts with washers, refer to the listing (beginning with the page D1) at the end of this parts catalogue. These bolts and washers should be ordered individually.

4. For the numerical index, refer to the page beginning with C1 at the end of this parts catalogue.
5. Some illustration may have some difference from the shape of real part when the illustration Shows a representation of various parts.
6. The parts and part numbers are subject to change without prior notice.

The items (1) thru (12) are as described below:

## (1) Compiling system

The systems of a unit are grouped according to their location in the unit. The groups, each identified by group number, are listed in the order by CONTENTS. Each group is preceded by an "exploded view" which clearly illustrates each part in its correct relation to the other parts in the illustration.

## (2) Reference number

Abbreviated to "REF. No.", this number is used to locate a part in the illustration. In cases that the reference number is of three to four digits, the first and second digits show the reference number of an assembly, and the last two digits show the numbers of its component parts.

## (3) Part numbers

The part numbers shown in this parts catalogue are those assigned to genuine Mitsubishi parts.

NOTE: Parts with asterisk (\*) are not supplied individually.

(4) Interchangeability codes

The interchangeability codes used in this parts catalogue are as follows:

| PART NO.         | Code<br>(R/P) | DESCRIPTION                                                                                                                                                                                              |
|------------------|---------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| A(Old)<br>B(New) | R             | B(new part) and A(old part) are mutually interchangeable                                                                                                                                                 |
| A(Old)<br>B(New) | 1             | A(Old part) is not supplied. B(new part) can be substituted for A(Old part).                                                                                                                             |
| A(Old)<br>B(New) | 3             | B(new part) can be substituted for A(old part).<br>[A(old part) cannot be substituted for B(new part).]                                                                                                  |
| A(Old)<br>B(New) | N             | B(new part) and A(old part) are not interchangeable.                                                                                                                                                     |
| A(Old)<br>B(New) | G             | B(new part) can be substituted for A(old part) in combination with other part(s).<br>(For the parts to be combined, refer to the listing beginning with the page E1 at the end of this parts catalogue.) |

(5) Sequence-of-change numbers

The parts are changed for improved quality or performance. Their changes are indicated in sequence by numerals (1.2.3...).

Blank : Original

1 : 1st change

2 : 2nd change

3 : 3rd change

(6) Change codes

These codes indicate the reason or purpose of changes of the parts.

A : Added part (a part entered into service)

C : Change of part number

D : Deleted part (a part applicable up to the serial no. expressed in Serial No. column)

E : Added part except above reasons

Q : Change of quantity

(7) Part name

Abbreviations are sometimes used. For the abbreviations, refer to TABLE OF SYMBOLS & ABBREVIATIONS appeared in hide pages of this general information chapter.

NOTE: The location terms L.H (left hand) and R.H (right hand) are as these directions viewed from the flywheel side of an engine.

(8) Description & Abbreviation codes

(a) Description codes (expressed in the first part of Description column).

B/W: Assembled bolt (with washer)

KIT: Part supplied as a kit

STD: Standard part

OPT: Optional part

AR : Part used, as required or by selection or in adjust quantity for necessity

SFN: Semi-finished part

(b) The Description codes in above paragraph (a) are followed by supplementary explanation such as dimensions (thickness, length, etc.) ,manufacturer part number, manufacturer name, etc. as occasion demands.

NOTE: Unless otherwise indicated, the dimensions are shown in millimeter and the name of unit is abbreviated.

(Examples) Thickness: T=1.00      Length: L=1000

Width: W=1500      Height: H=500

(c) Specification codes

Each specification or type of model, and selective specifications of a unit are indicated by codes of three digits. For these codes, refer to LIST OF SPECIFICATION CODES appeared in hind pages of this general information chapter.

NOTE: Unless indicated by the specification codes, the parts may be used for the products of all specifications.

(Examples) A10:For diesel fuel

B10:With industrial electric starter

- (d) The parts indicated as "NOT SHOWN", such as component parts of overhaul gasket kit, are not shown in the illustration.

(9) Model & quantity

- (a) Model : Model, type, specification, destination, etc. of product to which a parts catalogue applies are indicated in the title column of each variation.
- (b) Quantity :Quantity of part or assembly, and its component parts required for one unit of product is indicated.

NOTE: In case "AR" appears in QTY column, it is required to adjust quantity for use.

(10) Applicable serial numbers

Applicable serial numbers of engine are indicated in the "UPTO" or "FROM" column. Serial numbers with "@" are scheduled ones and sometimes differ from the real serial numbers. If the "FROM " column is blank, the part is applicable to serial number shown on this cover and up.

(11) Management rank

The parts ranked as "A" are high-demand parts. This ranking is to be referred to by dealers, and is devised to facilitate and rationalize their distribution, stocking and inventory of the parts.

- (12) The parts changed or added after the last parts list that has been published are identified by "V."

## TABLE OF SYMBOLS & ABBREVIATIONS

| SYMBOL  | DESCRIPTION               | SYMBOL | DESCRIPTION    |
|---------|---------------------------|--------|----------------|
| ACCEL   | ACCELERATOR               | ELEC   | ELECTRIC       |

# 65-03-02 INJECTION PUMP GENERAL

Ref. No. 134 Distributor head(Part Number 14640-14220)  
Consists of 3 parts that are referred to by No. 134A, 134B, and 134C.
