Only genuine parts are presented in this catalogue. These parts have been subjected to the necessary function and endurance tests, and they comply with the high quality and safety requirements that have been set for Volvo Construction Equipment. You should note that warranties do not cover damages that are caused or aggravated by the fact that a non-genuine part was fitted.

The illustrations shown in the catalogues should not be used as assembly or workshop instructions. Separate literature for the various specific subject areas is available for that purpose.

The owner of the machine or equipment should state the model designation, manufacturing number, part number, quantity, and the name, or description, of the part when ordering parts.

For location of the model and engine designation plates, etc, see page 4.
