GENERAL INFORMATION

This parts catalog has been prepared for the customers of Toyota Industrial Vehicles and this shows only the part name codes instead of parts numbers.

When ordering parts from your local Toyota dealer, please specify the complete model number of the truck, the engine number or frame number. Also it is essential that you specify the part name codes described in the pages of illustrations and text.

The complete model number and frame number are shown in the front page of this catalog. All the columns in this quick-reference index are supposed to be filled out by both the factory and your local dealer.
