Preface

◎ This parts catalog contains parts used for all the machines having machine numbers following the numbers mentioned on the face.

◎ Prior to placing orders, verify that part numbers used correspond with those on the specification for the actual machine, because this catalog also contains the part list corresponding to the specifications for machines other than those delivered.

◎ For engine parts, refer to the Chapter “ ENGINE”.

◎ Since products are continually improved, changes could not be described on the part catalog. The revised revision describing those changes will be issued, as required.
For farther information, please contact our nearby branch, or representative.

◎ For the machine, the boom side is called the Front, Counterweight side is “ Rear ”, and the opposite side is “ Right”, and for the track part the travel motor side is called the “ Rear ”.

1. Placing order

Part order should be placed to dealers after completing the following items.

（1）Machine type ［Example ］ PM05-05001-
（2）Machine No. or E/G No 219230
（3）Part No YR20M01020P1
（4）Part Name CONNEC TOR
（5）Quantity required 2
（6）Address, Name and how to forward

2. How to read catalog

silvernorm.co.uk

① I t e m : Index number given to every part in the part descriptive list.
Part organizing A1 are described as A1-1, A1-2, A1-3, ... And parts organizing A1-1 are A1-1A, A1-1B, A1-1C, ...

② Part Number : Proper number given to parts. In case “Not P/No” mark is put in the part number space, the parts are not in supply individually. Those parts should be ordered as assembly parts.

③ Part Name : Name of the parts.

④ Quantity required : “Number of parts necessary for One(1) unit” is shown. However, for component parts for assembly, it shows the “Number of parts for One(1) set” of assembly.

⑤ Remarks : Marks shown in the “Remark” space means the following.

A : Two parts represented by this mark allow interchangeability, and former or new part is available. When marked in ( ), it is interchangeable with corresponding part in Parts List, and either may be used.

B : Two parts represented by this mark allow interchangeability. The new part can be used in lieu of the former one.

C : Two parts represented by this mark allow interchangeability. The former part can be used in lieu of new one.

＊1 Notes which can not be put in the “Remarks” space, are
＊2 described in the last space on the Parts List.

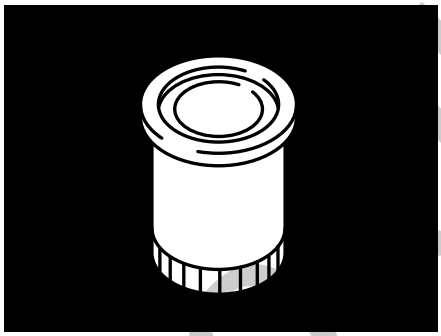

⑥ Applicable Machine : The machine type using the parts is indicated. Parts for which the machine type is not indicated are common for all the machines which are listed in this catalog.
And, where the machine type can not be described in the “Applicable” space, put marks such as (A),(B), ... , and describe it at the last space on the Parts List.
〔Note〕 When the interchangeable marks are put in the “Remarks” space for par number to be used to place an order, the interchangeable parts could be supplied automatically.

⑦ SEE(C.P.M) : Refer to the hydraulic components parts
SEE(E/G) : Refer to the engine parts
