- 1 Item Index number given to every part in the part illustration.
- 2 Part Number Proper number given to parts.  
Note: Not soled parts (NS) are illustrated partly but not listed.
- 3 Part Name The part name is indicated together with the complementary name.
- 4 Quantity required "Number of parts necessary for One (1) unit" is shown. However, for component parts for assembly, it shows the "Number of parts for One (1) set" of assembly.
- 5 Remarks Marks shown in the "Remarks" column means the following.
- "A", "B", and "C" shown in the list are indicated a liner identification. Each liner should insert the same liner identification to the main body.
  - Superseding part numbers are listed directly below the old part number. An alphabetical character; i.e. "a" or "b" is used to indicate the type of interchangeability that exists between the old and new part number. If an alphabetical character is not shown then these part numbers are not interchangeable.
    - Totally interchangeable. Either part number may be used.
    - The new part number will replace the old part number, however, the old part number will not replace the new part number.

EXAMPLE
